

## **CONSULTANCY FOR TECHNICAL EDITORIAL SERVICES FOR THE KAM SUSTAINABLE DEVELOPMENT GOAL READINESS STUDY REPORT**

---

### **1.0 Background**

The Kenya Association of Manufacturers (KAM) is the leading Business Member Organization in East Africa and is the representative organization for manufacturing value-add industries in Kenya. KAM plays a key advocacy role on behalf of manufacturers in Kenya by providing an essential link for co-operation, dialogue and understanding with the Government and related agencies. KAM has over 1000 members and represents over 40% of Kenya's manufacturing value add industries.

KAM also represents Kenya's manufacturing sector interests in the region and beyond e.g. East Africa Community (EAC). To achieve the core mandate of policy advocacy, KAM promotes trade and investment; upholds standards; and encourages the formulation, enactment and administration of sound policies that facilitate a competitive business environment and reduce the cost of doing business.

KAM was actively involved as a representative of a high level panel to advice on the development of SDGs. KAM also serves as the secretariat to the UN Global Compact Network Kenya, which aims to advance business awareness and action in support of achieving the SDGs by 2030. KAM in collaboration with the UN Global Compact Network in Kenya, is therefore strategically placed to champion the adoption of SDGs and the establishment of public private partnerships on the same. Specifically, policy makers need to review and change economic policy, including the patterns of production, distribution and consumption within a framework of green growth to increase Kenya's chances of meeting all SDGs.

In 2018, KAM developed a study on Kenya's SDG readiness that was aimed at defining roles and propose strategies of engagement for all stakeholders involved in the consultative process. The study;

- i. Reviewed legislation, policies, strategies and plans to propose how sustainable development principles will be integrated into national development.
- ii. Reviewed the National SDGs Roadmap within the context of 'a green economy', and assessing potential gaps and opportunities;

- iii. Evaluated SDGs Roadmap Plan and assessed SDG readiness of all arms of Government.
- iv. Enhanced stakeholder knowledge on the SDGs with particular emphasis on green growth/economy as the transformational aspect of Agenda 2030;
- v. Developed and proposed indicators for monitoring SDGs implementation
- vi. Documented and shared good practices, lessons and challenges in engagement with the SDGs.

## **2.0 Objective of the Consultancy**

The objective of the Consultancy is to provide technical editorial services for the KAM Sustainable Development Goal Readiness study report and develop legislative brief fact sheets on the SDG Goals based on the study findings.

## **3.0 Scope of Work**

The Kenya Association of Manufacturers (KAM) requests for technical and financial Proposal from individuals and firms to provide technical editorial Services for the KAM Sustainable Development Goal Readiness study report and develop legislative brief fact sheets on the SDG Goals based on the study findings.

## **4.0 Services Required**

KAM requires the following services:

1. Review of the content of the study to ensure;
  - i. The content is up to date and the recommendations are SMART to ensure implementation.
  - ii. Ensure that the text meets Publication requirements of the style guide regarding capitalization, punctuation, word usage, highlighting (bold, italics), use of symbols, font usages and bibliographic references among others.
  - iii. Ensure that all the numbered lists are numbered correctly.
  - iv. Ensure that the figure captions, table or diagrams are consistent with the text and the illustration in the figures (for example, references to the names of dialog boxes and fields are correct).
  - v. Ensure that all the page breaks are consistent with page layout provided.
  - vi. Ensure that the required front and back matter (e.g. preface, index, and glossary) are included.
  - vii. Augment the flow of the document which includes Table of Contents, and Abbreviations.
  - viii. Correct all typographical errors and the use of language.
  
2. Develop SDGs legislative brief fact sheets with information on the following;
  - i. Legislative, policy and institutional gaps
  - ii. Relevant data and statistics on the SDGs

3. Provide KAM with a soft and hard copy of the revised study.
4. Provide any other findings that the Technical Editor shall deem suitable and appropriate for the improvement of the study report.

## 5.0 Expected Outputs

The following are the expected outputs:

1. The edited copy of the KAM Sustainable Development Goal Readiness study report.
2. SDGs legislative brief fact sheets

In the course of providing the services, the consultant will be required to:

1. Report to and provide regular updates to KAM;
2. Consult internally with KAM for any relevant information;
3. Make presentations to stakeholders on the edited report and the SDGs legislative brief facts sheet when required.

## 6.0 Timeframe and implementation schedule

The consultant will work under the overall supervision of the Kenya Association of Manufacturers, Policy, Research and Advocacy Unit.

The consultancy is to be performed over 14 days, starting in the month of August 2019. The proposed timeline excludes the time gap in between relevant meetings between the consultant and stakeholders; as well as time that may be required for KAM to review the output for approval purposes.
